50 CENTS PER MONTH

HITCHCOCK'S PLAN ALSO TAFT'S

Believed Two Officials Agree
on Federal Control of Tele-
graph Lines

POSTMASTER GENERAL SPRINGS PROPOSITION

Declares That Economy and
Low Rates Would Follow
His Proposed Plan

WASHINGTON, Jan. 15.—Official Washington believes that the Hitchcock-Taft conference indicates that governmental control of the telegraph is a Taft policy. At the White House it is officially stated that the President and Postmaster General Hitchcock are not at all following the report that Hitchcock was called on the carpet. Leaving the White House, President Hitchcock declined to discuss the matter, saying, "The President is a better talker than I am. He had better tell you."

**PRESIDENT WAS REPORTED
AS ANGRY AT HITCHCOCK**
WASHINGTON, Jan. 15.—It was said that there was consternation at the White House over Postmaster General Hitchcock's announcement that he favors the government ownership of telegraphs. Mr. Hitchcock was summoned to the White House for a conference with President Taft. White House officials refused to discuss the matter, although it was made plain that Hitchcock's plan was his own, and was not authorized by President Taft, who is reported as angry over the matter.

Hitchcock's Position
Postmaster General Hitchcock last night announced that he would soon recommend to congress the acquisition of the telegraph lines of the United States, and their operation as a part of the postal service. Mr. Hitchcock has had this matter under consideration for over a year and has thoroughly studied the operation of government-controlled lines and postal telegraph systems of foreign countries. He is convinced that economy and the lowering of the telegraph rates are now exacted. He declares that in approximately fifty countries of the world—notably Great Britain, France, Germany, Austria, Italy, Spain, Russia and Japan—government-controlled telegraphs now are in profitable operation.

EDMAND'S FORTUNE TO RICHESON'S AID

Gov. Foss Flooded With Ap-
peals For Commutation of
the Death Sentence

BOSTON, Jan. 15.—Attorney Morse for Rev. C. V. T. Richeson, denied that Moses Grant Edmands, father of Violet Edmands, Richeson's fiancée, has withdrawn from the fight to save the preacher's life. He declared the Edmands fortune was available. Governor Foss has been flooded with telegrams and letters demanding the commutation of the death sentence. One woman asked him to pardon Richeson on condition that he consent to spend the remainder of his life in foreign missions. It is generally believed that Governor Foss will not relent.

ARBISO AGAIN IN SERIOUS TROUBLE

ORANGE, Jan. 15.—Charles Arbiso was taken to the county jail Saturday night on a felony charge. Young Arbiso has been in various kinds of trouble, and but a few months ago was in the reform school at Whittier. The J. H. Adams Co. has given notice that it has accepted the \$50,000 water works and the \$5000 fire department bonds voted by the city. H. McCarthy and M. Milliken paid \$5 each in the justice court today as the result of a fracas they engaged in last night.

Young Heiress Runs Away For Waiter Lover

NEW YORK, Jan. 15.—"Jack, don't give up, hun, I must go. I will write as soon as possible. Bye-bye.—V."
P. S.—Stick to me, Jack, everything will be O. K.
The above note, addressed to Jack Clewne, a waiter, was found by the police today following the discovery of Violet Buchler, the 15-year-old Chicago heiress who disappeared on November 25. The girl admits that she left home because of the waiter, and secured work at three dollars weekly, attending Miss Britt, an invalid, in the tenement district.
The girl denies that she is married, and says she will not return to Chicago unless forced. "I expect to marry Jack when I am older," she said. "My foster mother treated me well, but did not permit me any boy friends. Other girls work for their living. I will return to New York at the first opportunity."
Clewne was arrested on a technical charge, but was later released, the police saying his relations with the girl were irreproachable.

Bulletins of News

Hot from the wire up to 3:30 p. m.

THE WEATHER

Cloudy and probably show-
ers tonight and Tuesday; light
east wind.

**Mecca Ranchers
To Operate Cotton Gin**
BANNING, Jan. 15.—Ranchers near Mecca have gone into cotton raising with such success that a gin will be running at Durbrow Station, on the Southern Pacific, within a week. It is expected the success attained will greatly increase the cotton acreage of next year.

**Aviator Robinson
To Fly From Steamship Deck**
LONDON, Jan. 15.—Aviator Hugh Robinson will ascend from the Hamburg-American steamship "Amerika" as the ship nears Hamburg. He will fly from the ship to one of the public parks of the city.

**California Astronomer
Praised By Cambridge Savant**
UNIVERSITY OF CALIFORNIA, Jan. 15.—Cordial congratulations were received yesterday by Astronomer R. G. Aitken of the Lick observatory from Sir Robert S. Ball, Loanean professor of astronomy and geometry in Cambridge University, England.

**Lorimer Probe Not
To Reach Senate Until March**
WASHINGTON, Jan. 15.—It is announced that the report of the Lorimer probe committee will not reach the Senate before March.

**Racine, Wis., Turns
Down Carnegie Library Gift**
RACINE, Wis., Jan. 15.—The city council, in committee of the whole, Saturday evening, refused, by a vote of 5 to 4, to accept \$10,000 from Andrew Carnegie for the building of a branch library at Racine Junction.

**27 Drown in River
Ems as Ice Broke Through**
EMDEN, Germany, Jan. 15.—Twenty-seven are known to have been drowned, and many are missing in a disaster when the ice in the river Ems broke through today. Hundreds of children were skating on the river.

**Five Killed, Five Hurt
In B. & O. Train Accident**
New Castle, Pa., Jan. 15.—Five trainmen were killed and five injured when a Baltimore & Ohio passenger train ran into an open switch in the local yards.

**Millionaire Lumberman
Dies Suddenly at Pasadena**
PASADENA, Jan. 15.—Thomas A. Shevlin, aged 60, a millionaire lumberman of Minneapolis, died this morning after an illness of twenty-four hours.

**Coast-wide Immigration
Conference at Tacoma**
TACOMA, Jan. 15.—Plans were completed today for a coast-wide immigration conference at Tacoma on February 21-22. Delegates from all coast cities will be invited. Governor West of Oregon, Johnson of California, Hawley of Idaho and Hay of Washington will speak.

**Quake Hits
Chico and Other Towns**
CHICO, Cal., Jan. 15.—A slight earthquake at 10:32 was felt here. No damage. The quake was more severe at Stirling and Magnolia.

MILITIA CHARGE STRIKERS AND INJURE 50

Attack Made With Fixed Bayo-
nets After 3000 Toilers
Had Repulsed Police

SITUATION IS CRITICAL AT LAWRENCE, MASS. MILLS

More Troops Forwarded on a
Special Train and Others
to Follow Later

LAWRENCE, Mass., Jan. 15.—Two companies of militia and a local artillery battery were rushed to the Pacific mills where three thousand striking mill hands are demolishing property. An ammunition wagon and ball cartridges were also rushed to the scene.

After the strikers had overcome the police the militia charged with fixed bayonets. Fifty people, including women and children were injured. The charge order was issued only after the police of Haverhill, Lynn, Lawrence and Lowell had been forced to retreat to the mill yards.

Conditions here are of the gravest. No serious disturbances have occurred yet at Lynn, Lowell or Haverhill, but are expected.
One hundred foreigners were arrested following the riot. The majority of them were armed with revolvers and razors.

**MORE SOLDIERS ORDERED
TO SCENE OF RIOTING**
BOSTON, Jan. 15.—Five more companies of militia have been ordered to Lawrence on a special train and others are going later.

COLD RENEWED IN THE MIDDLE WEST

Below Zero Weather Again
Visits Chicago—Country
Was Gripped Yesterday

CHICAGO, Jan. 15.—Cold has been renewed and the temperature has dropped to three below zero. Four steamers caught in the ice battled into port with their crews in pitiable condition. Several deaths occurred today. Total deaths from cold here now exceed one hundred.
The renewed cold is general throughout the Middle West and Canada.

WASHINGTON SUFFERED WITH BELOW ZERO TEMPERATURE

WASHINGTON, Jan. 15.—The national capital shivered yesterday in the grasp of a cold wave that drove the mercury at the Weather Bureau down to 13 below zero, within two degrees of the record temperature—15 below—of February 11, 1899.

Northfield, Vt., with a registration of 26 below zero, officially was the coldest place in the country yesterday. Temperatures nearly as low were recorded at many inland New England points. The minimum at Boston was 2 below. A like temperature was recorded at New York, Philadelphia and Baltimore.

Caught in Ice Floes
NEW YORK, Jan. 15.—Fifty men, two women and several children are marooned on two tugs and four ice barges caught in the Hudson river ice-floes off Hastings.

Steamer Frozen in Lake
CHICAGO, Jan. 15.—With forty members of the crew of fifty suffering with frozen noses, ears and fingers, the steamship Indiana of the Goodrich Transportation Company, docked last night at 7 o'clock after being frozen in the lake three miles off Edgewater.

Better Weather
WASHINGTON, Jan. 15.—The Weather Bureau says no severe cold wave will cross the country this week. It further announced that the "week will be generally fair east of the Rocky mountains, except that short periods of rains in southern and snows in northern states will attend a disturbance which will appear in the northwest Tuesday, cross the middle west Wednesday and the eastern states about Friday. Precipitation will be above the normal in the Pacific states."

TOWEL AND SOAP BARRED
ONTARIO, Jan. 13.—Determined to make the city schools as sanitary as possible, the local Board of Education has placed a ban on the common roller towel and soap.
Some time ago the general drinking cup danger was eliminated. In the future individual paper towels and liquid soap will be used in all the city's grammar schools.

SEARCH BRINGS OFFICERS NO CLEWS

Bank Robbers Seem to Have
Made Good Their Get-away
in Canyon

DESCRIPTIONS FAR TOO MEAGER

Man Who Bought Canned Meat
May Have Been Bandit
Wounded in Fight

At 6:30 o'clock Saturday morning the three men who robbed the State Bank of Newport Saturday morning at 2:15 o'clock, abandoned the stolen rig in which they escaped. Since that time the officers do not know for a certainty that they have been seen. There is a story to the effect that a man with one hand bandaged applied at a Richmond store and bought a ten-cent can of deviled ham. There is another story that a man was given a ride in an automobile from near where the rig was abandoned to Corona. There are some things that lead the officers to believe these were of the trio of robbers, but there is no certainty.

Saturday night after a search of the vicinity in which the rig was abandoned, Deputy Sheriffs Squires and Law and Constables Jackson and Heard returned. Yesterday morning these four men and Sheriff Rudcock, who returned at that time from San Quentin, where he had taken a prisoner, and a detective of the W. J. Burns Detective Agency of Los Angeles, took an automobile and rode to Sycamore Flats. At that point the automobile broke down and it was hours before relief was secured and the machine fixed. The surrounding foothills and canyon bottom were scoured without trace of the robbers being secured.

Have Descriptions
The officers have meager descriptions of the three men who robbed the bank and the post office at Newport Beach. The three men were around the beach from Tuesday until the night of the robbery. They occupied a shack, which when searched Saturday produced no clues. Although one of the men was around the postoffice repeatedly the description is not distinctive. The postoffice building was entered for the purpose of putting the telephone wires out of commission, which was done effectively. The wires were cut at the exchange. The sum of \$10 belonging to the Pacific Telephone & Telegraph Co. was stolen.
The best description of any of the men is that given by a girl who lived near the shack and passed it frequently. Two of the men did not strike her as unusual. The third, though, gave her the "shivers." He had a pair of wicked dark eyes.

Credit to Hall
The American Bankers' Association is said to be highly pleased with the nerve shooting done by William Hall, the Newport Beach saloon man. Hall took his station across the street from the bank, and fought it out with the bandits.

When Hall arrived on the scene he got behind a big drum of gasoline that stands behind the G. A. Edgar house. He saw the flash and heard the boom of the last explosion. From where he was the only light that showed was through the transom. He thought the door was of wood, or he would have fired through it. It was of glass, but the curtain was down tight. Had Hall known the door was of glass he would have fired through it, and undoubtedly would have killed a robber, for the man evidently stood in direct line. He was in the directors' room at the rear of the bank standing beside a table. In one hand he held a nose bag filled to the brim with coin. In the other he held a revolver. When the shot crashed through the transom and scattered glass over him, the robber involuntarily dropped the coin and at the same instant pressed the trigger. A bullet mark is on the top of the table.

The man behind the bath-house by this time was shooting at Hall. The man had a high-power firearm, as is shown by the effect of the bullets on the building behind where Hall was crouching, returning the man's fire.
Saturday dozens of people made an examination of the bank and the premises. Detectives of the W. J. Burns agency, which represents the American Bankers' Association, and representatives of the Maryland Casualty Co. were among them. The Casualty company counted the money, and found \$240 gold and \$359.10 silver missing. That money was paid over to the bank and \$625 for damage to the safe. The insurance company will repair the building, which was badly shattered.
The count showed that the robbers were scared away leaving \$2600 behind.

TVEITMOE DENOUNCES CAPITAL BITTERLY

Makes Report to Buildings Trades Council—Denies Complicity in McNamara Case—Attacks Lawler and Hearst

FRESNO, Jan. 15.—The California State Building Trades Council is in annual session here. The principal matters of business are the defense of Secretary-Treasurer Olaf A. Tveitmoe to the charges concerning his connection with the alleged dynamiting conspiracy and political problems.
Ex-Mayor McCarthy of San Francisco is presiding at sessions which will be executive. A fight is threatened by members who want public sessions.

Tveitmoe's report included a review of labor conditions in this state which concluded with a statement of his belief that before the next convention of the council, "Los Angeles will be the most thoroughly unionized city in the state." Fierce denunciation of Big Business, their "hired Hessians, intellectual prostitutes and pitiful parasites," marked Tveitmoe's discussion of the war of Capital and Labor. "Does the enemy want an accounting of the dead?" he said. "If so count all the men, women and children who have lost their lives in the industrial war in mines, in factories, on railroads, on buildings, on land and sea within the last five decades and you will have an appalling figure that will run into millions and beyond it all you will see an ocean of human blood submerging our civilized lands, lighted by industrial monuments of bleached bones and grinning skulls. Does the enemy want an accounting of the dead?"

"Yet, through it all Labor has patiently toiled, suffered and died. It organized when it was compelled, it protested when it was forced to, its victories have been those of peace and not of war. It has taken the children out of the factories and placed them in the schools and on the playgrounds, it has reduced the hours of work for both men and women; it has made better citizens with higher hopes and ardent aspirations to help

in the uplift of mankind. Union men and women work for peace because peace means greater happiness to all. They believe that murder is the most horrible of all crimes, and that the taking of human life, whether committed by individual, society, state or nation, in an ordinary brawl, an industrial struggle, or a so-called civilized war, is murder."

"If Labor should invoke as a law 'An eye for an eye and a tooth for a tooth' the world would have a deluge of human blood without a saving Ark or a Mount Ararat, but with numberless Caesar's Columns to mark the final landings."
Turning then to a specific consideration of the McNamara cases Tveitmoe reviewed briefly the facts of the McNamara arrests. He scored the war of the United States Steel Corporation upon the unions as the underlying cause of the McNamara acts and quoted at great length from an article by Charles Edward Russell to the effect that "the real culprits in this dreadful story are not the two men that, in our wisdom we have entombed at San Quentin. The blackest culprits are the men and women that know well enough of the essentially unjust conditions of modern life; that know the vast majority of mankind is condemned to insufficiency and intellectual darkness and still go their way content with the thought that they, at least, have enough."

Tveitmoe's report then dwelt scorchingly on the record of W. R. Hearst as a politician and as an employer of labor, struck savagely at District Attorney Fredericks of Los Angeles and then definitely charged that Oscar Lawler, in furtherance of Hearst's alleged scheme, promised immunity from prosecution to any labor leader who would inculcate Samuel Gompers, president of the American Federation of Labor, in the acts of the McNamaras.

ASSEMBLYMAN IS KILLED BY THUGS

Mullally Dead—Stockton Cafe
Keeper Also Murdered By
Would-be Robbers

SAN FRANCISCO, Jan. 15.—Assemblyman John E. Mullally of the thirtieth district, was killed in a battle with three masked robbers who were holding up his saloon. John Craig, a customer, was wounded in the thigh. The robbers escaped without securing any coin.

**CAFE-KEEPER MURDERED
BY WOULD-BE ROBBERS**
STOCKTON, Jan. 15.—William Newman was shot and killed in his cafe by masked hold-ups who then escaped, without securing Newman's \$500 diamond ring, his \$700 stud or three hundred dollars in the till.

10,000 MEN CARRY BIBLES THROUGH FRISCO STREETS

SAN FRANCISCO, Jan. 15.—Headed by an escort of mounted police and a band of thirty pieces, 10,000 men with Bibles in their hands marched through the streets yesterday afternoon while thousands of people stood on the sidewalks and watched the impressive sight. It was one of the most remarkable demonstrations ever seen in this city.

At the head of the lines marched Gypsy Smith, the famous evangelist, and Henry J. McJoy, the veteran general secretary of the Y.M.C.A. in this city. The parade was a result of meetings now being held here by Evangelist Smith, and it was a success far beyond the expectations of the organizers. The line was formed at Union Square, the line in the heart of the downtown section, and traversing three miles of streets terminated at Pavilion Rink, where a great meeting for men was held. Throughout the line of march the marchers frequently sang hymns.

SPAIN'S CABINET RESIGNED WHEN KING PARDONED 7

MADRID, Jan. 15.—The Spanish cabinet resigned yesterday, following King Alfonso's action in granting reprieves to all of the seven men sentenced to death for the murder of a magistrate and three other officials during the strike riots in Cullera last September.

M'DONALD IS NEW MEXICO'S GOVERNOR

Inaugurated Today as First
Head of New State Lately
Admitted to Union

SANTA FE, N. M., Jan. 15.—W. C. McDonald was inaugurated as the first state governor at noon in the hall of representatives. Thousands of visitors from over the southwest were present. A military parade followed the ceremonies. An inaugural ball will come off tonight at the governor's residence, which was used by the Spanish governors as a palace three hundred years ago.
The legislature of New Mexico will meet in three weeks to elect United States senators.

RIFLE-SIGHTING DEVICE CUTS OUT RANGE-FINDING

EDINBURGH, Jan. 15.—Volunteer Sergeant Ommundsen, the winner of the king's prize for shooting at Bisle, has invented a rifle-sighting device which eliminates the necessity of finding the range. Experts are enthusiastic over the invention and naval officers are testing it with a view of having it adopted in the army and navy. Tests under skirmishing conditions have shown a percentage of hits of ninety-five as compared with nineteen by ordinary sights.

STAY OF EXECUTION IN FRED H. THOMPSON CASE

LOS ANGELES, Jan. 15.—Judge Wellborn of the Federal District Court granted a writ of supercedas, practically amounting to a sixty-days' stay of execution in the case of Fred H. Thompson, guilty of embezzlement in connection with the receiving of stolen postal funds from Orlando Altorre. Thompson is held in default of \$20,000 bonds.

HORSE SHIED; BOY IS HURT

Everett Sealey's left shoulder was broken about noon today when he was knocked off his motorcycle by a horse ridden by a little girl, a daughter of Mrs. Lopez. The horse shied at something and the girl lost control. After striking the motorcycle the horse ran north on Sycamore and was stopped at the courthouse by the Burns detective who was here on the bank robbery case. The horse was badly cut on one leg.

ABDICATION OF MANCHUS IS NEAR

Prince Ching Will Delay it to
Utmost But End Is Now Ex-
pected Momentarily

IMPERIALISTS ADVANCING TO MEET REBELS AT PEKIN

Massacre Reports Confirmed
—Fierce Fighting Near Sian
Fu—Many Are Killed

TIENTSIN, Jan. 15.—Complete abdication of the Manchu throne is momentarily expected. Regent Prince Ching conferred with Premier Yuan Shih Kai, declaring he would postpone the abdication to the utmost, but the end is known to be near.

**2000 IMPERIALISTS MARCH
TO MEET ADVANCING REBELS**
LONDON, Jan. 15.—Two thousand imperialists are marching to meet the rebels advancing on Peking. The rebels are expected to land tonight at Lanchow.

**MASSACRE CONFIRMED—
FIGHTING IS DESPERATE**
PEKIN, Jan. 15.—The reported massacre of ten thousand Manchus by the rebels at Shen Si district has been confirmed. The imperial army in the Shen Si district is within sixty miles of Sian Fu, killing and looting. Terrific fighting marks their advance and hundreds are being killed in battle.

LONDON, Jan. 15.—St. Petersburg dispatches declare that the partition of China has already begun, and that the Manchu Emperor will abdicate. In view of the fact that Russian troops from Harbin have entered Mongolia at three points, the proclamation of a protectorate is expected.

Armistice Asked For
PEKIN, Jan. 15.—A dispatch from Harbin, Manchuria, says the Russian soldiers have crossed the frontier into Mongolia at three points. A proclamation of a Russian protectorate over Mongolia is daily expected.
There were several reports yesterday which seemed to indicate an immediate advance of the rebels on Peking. On the other hand, it is said that the republican leaders at Shanghai have asked for another armistice for a fortnight and that it has been granted.

MANCHU PRINCES FAVOR ABDICATION OF THRONE

LONDON, Jan. 15.—A Peking dispatch says almost all the Manchus favor the abdication of the throne, and it is now only a question of providing security for their persons and property and providing them with pensions. When these matters have been arranged, an abdication edict will be issued in the name of the dowager empress and Premier Yuan Shih Kai will be left to continue the government with the machinery now in existence.
He will be instructed to co-operate with the republican provisional government in forming a provisional coalition government in order to maintain order throughout the empire.

ITALIANS CAPTURE OR DESTROY TURKS' SHIPS ON RED SEA

ADEN, Jan. 15.—All vessels flying the Turkish flag on the Red Sea are reported as destroyed or captured by the Italian cruisers Galavria, Puglia and Piedmonte. The cruisers were bombarded by several military camps on the coasts of Yamen province.

PHONOGRAPH NEEDLES GROW ON CITRUS TREES

BANNING, Jan. 15.—That necessity is the mother of invention has again been demonstrated, this time by the residents of Palm Springs, a desert settlement, who have discovered a source of supply of phonograph needles in the orange and lemon groves surrounding the springs. Incidentally, the discovery may have the ultimate effect of seriously curtailing the future sales of steel phonograph needles, hitherto the usual kind in use.

A MIGHTY CLEARANCE SALE!

Of Dry Goods and Ladies' Ready-to-Wear Apparel, Commencing

Monday, January 15th

AND ENDING

Saturday Evening, January 20th

If a real money-saving event is of interest to you, if you appreciate price reductions, ranging from 10 to 50 per cent on everything in our immense stock of seasonable goods, Do not miss this sale.

Broken lines of Underwear at half price.

Dress Trimmings, a good assortment at half price.

Royal Worcester Corsets at a 10 per cent discount.

10 per cent discount on all goods not advertised.

CROOKSHANK-BEATTY CO.

FRANK CHAMPION BADLY WOUNDED

Was Accidentally Shot By His
Mechanic—Is Likely
to Lose a Leg

LONG BEACH, Jan. 15.—A sheep bone grafted may save the leg of Aviator Frank Champion, who was accidentally shot at Dominguez yesterday by mechanic W. C. Gibson. The attempt will be made unless gangrene appears, then amputation will be necessary.

"If you cut that off, I'll be the only one-legged aviator," declared Champion. He declares he will continue flying regardless of what may be the outcome of his accident.

Shooting Was Accidental
LOS ANGELES, Jan. 15.—After escaping serious injury in the long series of daring, brilliant aerial flights

he has made in Southern California, Frank Champion, the Long Beach aviator, was dangerously wounded at Dominguez Field yesterday by the accidental discharge of a shotgun in the hands of his mechanic, W. C. Gibson, and will probably lose his left leg below the knee.

Champion declares he will continue flying even though the leg should have to be amputated.

Champion with his mechanic, W. C. Gibson, his wife, Miss Arizque and a friend, J. W. Chadwick, were leaving the aviation field when the accident occurred. Gibson was carrying a double-barreled shotgun, one barrel of which was loaded with bird shot. The mechanic was carrying the gun with the muzzle pointed to the front, when the sudden appearance of a rabbit caused its accidental discharge.

—The tonneau is exceptionally roomy in an E-M-F "30." Look at our exhibit this week. Wm. F. Lutz Co.

Don't throw or give away your hat because it is a little the worse for wear. We are experts in the line of reblocking and cleaning hats. You are invited to call and see our work. Guarantee Hat Works, 403 North Birch St., Santa Ana, Cal.

NEW OPERATIONS IN NEW TERRITORY

Olinda Derrick: The big movement, which has been anticipated in the columns of the Derrick and by oil men generally in the field, in new territory by independent operating concerns, has begun in earnest.

It came with a rush this week, three new companies having taken the preliminary steps on their ground for the beginning of drilling since the first of the week. Meantime the old operating companies of the field are pushing forward with their extensions into the new territory.

Incoming of the tide of new operators and their activities is attributable directly to the entry of the Amalgamated Oil Co., closely followed by the Standard, to the new territory in La Habra Valley. The steps toward development now inaugurated are due to the success of the Amalgamated in getting the oil and to the fact that the Standard is about to repeat the success of the former

company, at least in some measure. Amalgamated's big gusher has turned the eyes of the oil developing world to this field with all attention and has spurred all hands to action. Certainly that the Standard Oil has the oil sand in its well adjoining the Amalgamated has given added impetus of great force to the movement during the last several days.

On the Nemo lease, a quarter of a mile southeast of Amalgamated No. 4, Superintendent Mosier started work of rig erection on Monday for the interests he represents. They are Oklahoma people who have been identified with oil development in their state and have large successes and much wealth to their credit. They believe they have fine territory on their lease and are going to go down with all the speed that can be brought about.

Adjoining the Nemo lease on the west, on the Gilman lease of 60 acres, the Petroleum Oil Co. will drill at once southeast of the Amalgamated. This company opened local accounts on Monday, and will have its first rig going up in a short time. The Petroleum Co. is composed of a group of wealthy Philadelphians, who have operated successfully both in the eastern and western fields. President Hollingsworth of the company is now in Los Angeles, and last week, in a meeting with Gus Stern, told him that there would be plenty of activity on the part of his associates in the new enterprise in this field. Mr. Hollingsworth is rated up in the millions.

On the east of the Schaffer Oil Co. and west of the Standard, the Maricopa Queen Co. is receiving material on its property this week, and will begin drilling at the earliest possible time. This company is composed of Long Beach and other Southern California people who have operated with much success in the Kern county fields, and believe that they are going to do even better and bigger things on their lease in this field than they have in the north. They come in with plenty of capital and lots of determination to carry out their plans.

So much for the new comers with development work during the present week. But this does not look like a marker for the activities that will follow and that promise to send rigs up in all directions under the management of new operators in the field. Perforation of its sand by the Standard in its well on the Yrarte lease and the bringing in of a producer there, will shoot the hole, as it were, and bring on the real scramble for place in the things-doing column.

To Cure a Cold in One Day
—Take Laxative Bromo Quinine Tablets. Druggists refund money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Life is too short to waste time and strength washing clothes over a smoky bonfire in the back yard. Try us on rough dry work and see how reasonable is our price. The Peoples New Laundry, 901 East Fifth St. Both phones.

WOULD CELEBRATE CENTURY OF PEACE

United States and England Plan
Magnificent Exposition
at Ghent

WASHINGTON, Jan. 15.—An international exposition with great buildings, allegorical statues, military reviews and historic pageants more magnificent than the world has ever witnessed, is planned in celebration of the treaty of Ghent, signed on December 14, 1814, which marked the beginning of a century of peace between Great Britain and the United States.

Prominent citizens of the United States and England are on committees arranging for the event and a bill for \$7,500,000 was recently introduced in Congress by Theodore Burton for an appropriation by this country for expenses. Great Britain plans a similar appropriation.

Land will be bought near Ghent, Switzerland, where the treaty was signed. Every colonial possession of Great Britain and every insular possession of the United States, illustrating the astounding growth and power of both nations since the conclusion of peace, is to be represented in the exhibition, which will be opened in the Cathedral of Ghent, where the treaty was signed on the centennial of the day and hour at which the signatures of the peace commissioners were affixed.

WOMEN WITH PILES

Be Cured By Simply Taking Sugar Coated Tablets

Constipation, tight clothing, and women's ordeals cause piles. Women suffer piles more than men and all will be grateful to know of a successful remedy in tablet form, that brings a cure without cutting, use of salves or suppositories. This guaranteed remedy is HEM-ROID, sold by Rowley Drug Co., Santa Ana, Cal., and all druggists. \$1 for treatment lasting 24 days.

Dr. Leonhardt Co., Station B, Buffalo, N. Y., Prop. Write for booklet.

They Are at the Bell
Butler and Clifford, "The Cowboy Fiddler and The Girl," one of the big features at the Bell tonight, present a novel number, consisting of music and comedy unlike any act that has been seen in Santa Ana this season, and having played the big houses, Manager Roberts does not hesitate to headline them with his big new show for the first three nights of the week. The new songs and pictures are of the always high-class and the entire program is a feature show.

APPLICATION
IS RECEIVED

Pacific Files Proposed Ordinance—No Mention of Fixing of Rates

Thief Stealing Child's Bank Gets His Hand Cut in Breaking it Open

The Pacific Telephone & Telegraph Co. has filed with City Clerk Burke its formal application for a franchise, which application will come up for consideration at the meeting of the city trustees tonight. Each trustee has been given a copy of the proposed ordinance, and the provisions will be up for discussion.

The provisions are entirely different from the ones proposed by City Attorney Heathman. The telephone company officials say that the new state law on public utilities takes many matters hitherto handled by city councils from the hands of the council to the control of the state board. The regulation of rates is not mentioned in the ordinance as submitted by the company.

In short, the provisions of the franchise as asked for are that the Pacific shall have the right to maintain wires and poles or conduits for telephone and telegraph service on the streets of Santa Ana; the company shall have the right to enter on the streets to repair and erect its apparatus; it shall repair all streets torn up, placing them in the same condition they were before disturbed, and if the company does not do this the city may do so and charge the cost to the company; the city has the option to say whether the wires shall be on poles or in conduits in any section of the city; the wires and conduits shall not interfere with sewers, water pipe, etc., of the city; the company shall pay to the city two per cent of its gross receipts to the city, a statement of receipts to be made by the company's manager, and payment made in January of each year; the franchise shall be for a term of thirty years.

Officers Called

Officers Lacy, Ryan and Hamilton were called at 8:30 o'clock last night to the Elliott home at 706 East Sixth street, in answer to a call that the house had been burglarized. It was found that while the family was at church, the front door was entered, and a china bank was taken from a bureau drawer, broken and robbed of \$1.89. The thief cut his hand in

breaking the china, as was shown by blood marks on the bureau and floor. Whoever the thief was, he made no search of the house, as \$15 in another drawer was not taken. It is probable that some boy is the miscreant.

Bicycles Missing

Two bicycles were reported stolen last night. One belonged to F. Rios of 908 Stafford street. It was a Racycle, No. 34139, and was taken from in front of the Bell Theater. The other was a Ranger, and belonged to Carl Beltz. It was taken from in front of the Mirror Theater.

Horse and Buggy Gone

Saturday night a report was received that a horse and buggy belonging to the Garden Grove Livery Stable was stolen from the racks back of the Grand Opera House. The horse was a bay with a white spot on the forehead and white spots on the back.

Given Permit

E. W. McCollum, paving foreman of the Pacific Electric, was given a permit today by Mayor Ey and City Marshal Wilson to carry a revolver. McCollum had trouble a few weeks ago with some of the Mexicans employed under him, and he asked to be allowed to carry a gun for emergencies. He says he has had no trouble here.

BREAKS UP A COLD
AND CURES GRIPPE

Most Severe Cold and Grippe Misery Relieved in a Few Hours

You can surely end Grippe and break up the most severe cold either in head, chest, back, stomach or limbs, by taking a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, mucous catarrhal discharges, running of the nose, soreness, stiffness and rheumatic twinges.

Take this harmless Compound as directed, without interference with your usual duties and with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end Grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

GARDEN GROVE
MOVES AHEAD

Six New Cottages Begun This Month in Thriving Agricultural Town

GARDEN GROVE, Jan. 15.—Garden Grove is among the rapidly growing towns of the county. Six new cottages have been begun this month. The Y.M.C.A. has put an addition to its building. Mr. Rayburn is adding forty feet to his store, occupied by O. S. Horwitz as a dry goods store. Mr. Horwitz intends to put in a furniture stock into the new part of the building.

Mr. Ayres has traded 15 acres of his place east of town for 160 acres near Bishop, Inyo county. He expects to move with his family next week.

Mr. and Mrs. Will Newsom of Covina, formerly of this place, have a new baby boy, born to them on Jan. 12.

Chester Lea's new house is nearing completion, as is also the new Methodist parsonage.

C. B. Henry has sold his poolroom and stock to Mr. Vincent.

Mrs. Barnes, of Kansas, is visiting at the home of Miss Carrie Kimball.

Miss Iva Powell was a business visitor at Los Angeles on Friday.

Mr. and Mrs. Wells, who have been visiting at the home of H. C. Powell, expect to go to San Fernando on Tuesday and visit relatives there before going to their home in Inyo county.

Mr. and Mrs. N. W. Best of Redlands, are visiting relatives here for a few days.

CASCARETS CURE A
BILIOUS HEADACHE

Gently But Thoroughly Cleanse Your Liver, Stomach and Bowels and You Feel Great By Morning

You're bilious, you have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes your lips are parched. No wonder you feel ugly, mean and ill tempered. Your system is full of bile not properly passed off, and what you need is a cleaning up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that every disorder of the stomach, liver and intestines can be quickly cured by morning with gentle, thorough Cascarets—they work while you sleep. A 10-cent box from your druggist will keep you and the entire family feeling good for months. Children love to take Cascarets, because they taste good and never gripe or sicken.

WILSON TO SUCCEED BACON
SAYS PERSISTENT RUMOR

WASHINGTON, Jan. 15.—Huntington Wilson, assistant secretary of state, is to succeed Robert Bacon as ambassador to France, according to persistent rumors in diplomatic circles here today.

Thomas C. Dawson, resident diplomatic officer of the State Department, whose name was mentioned in connection with the post of ambassador to Brazil, to which Edward V. Morgan was named, will be made assistant secretary of state, the same rumor says.

PRINCE GRAIN & MILLING CO.

doubtedly have hearings and go over the situation carefully before bringing in a bill, which must, in the very nature of things, be passed as closely as possible. In fact I think it would be good business judgment to keep appropriations for new projects entirely out of such a bill and provide only for the continuance of those projects which have been already sanctioned by law.

"Speaking for myself I am in favor of a conservative river and harbor bill if we have money in the treasury to meet the demands upon us, but in the event we find the treasury drifting toward a deficit then I will oppose any legislation that will hasten such a catastrophe. What we need most at this time is safety and soundness in matters of legislation as we do in matters of business."

Failure to pass a rivers and harbors appropriation bill at the present session would, in the opinion of those who have given careful study to the subject, put back the cause of waterway improvements at least five years. It would virtually compel the National Rivers and Harbors Congress to begin all over again the nation-wide educational campaign for a broad and comprehensive policy of waterway betterments which it has maintained for ten years.

HERE'S HOPING

Just as a pointer on how to do things in the way of publicity and promotion, let us point with hanging head to little Visalia, about half the size of Santa Ana.

The board of trade of Visalia has voted to raise \$6000 for its work the coming year. Most of this sum will be spent on publicity and promotion work.

Without having any figures at hand, we venture the assertion that the Santa Ana Chamber of Commerce hasn't spent \$6000 in the past ten years for publicity and promotion work.

This is not saying that it ought to spend \$6000 a year for this work. But it is saying that we ought to raise and spend more money than we do in telling the outside world what a beautiful, attractive town and county we have here—how large and varied our resources are, how delightful our climate, how clean and wholesome the moral atmosphere is—in short how altogether desirable and advantageous it is to live and work in this community.

It is rather a bitter pill to look back upon wasted or neglected opportunity, but in this instance the dose is sweetened somewhat by the lively and well-founded hope for better things in the near future.

THE CONGRESSIONAL SITUATION

The congressional situation is becoming somewhat elucidated and at the same time more complicated.

Former Mayor Evans of Riverside is being openly boomed for the nomination by the Riverside Enterprise and from other sources the information comes that Mr. Evans is in a receptive frame of mind and that a movement is on foot to secure a showdown of strength in Riverside as between him and Francis Cuttle, whose friends throughout the district have been urging him to make the race. Either of these gentlemen would make a strong candidate and a good congressman.

By way of "The Lancier," in the Los Angeles Times comes this contribution:

"Senor Miguel Estudillo, he of the circumference of the orange belt, who represents Riverside and Orange in the state senate, was in Los Angeles last week to find out if he should become a candidate for congress in the new Eleventh district as a real, for-sure La Follette man. Miguel is a "progressive" and being so wants to provide for his political appetite, like the rest of them. He has a chance to go back to the senate, Imperial county, which he nursed on state patronage in two sessions, is now a part of his senate district and its vote, added to Riverside's, may overcome the bombastic Clyde Bishop of Santa Ana, who seems to assert that his right to the nomination for the senate is a vested one. But I learn that Bishop has found reason to seek San Diego climate and may not be a factor at all. At any rate Miguel feels the call of duty, is the man of the hour, needs the pie and, therefore, is a La Follette candidate. But also are Roberts, King, Cuttle, and others who would go to congress.

"In addition Washington dispatches say Congressman Needham of the present Sixth district, is seriously considering the request of A. F. Call, a leader of the citrus growers, that he move to the Southland and seek the nomination in the Eleventh. There is little probability, in fact, that Needham will make the change. Voters do not take to such things even when a man is as worthy as Needham, and as well-known to the South, which he has always stood by.

"If I am correctly informed the situation in the Eleventh will be improved by the announcement soon that Richard Melrose, of Anaheim, former Assemblyman from Orange county, will be a candidate before the primaries. Melrose has lived in this district for forty years and has been conspicuous in his defense of the farmers' rights against the water grabbers. Melrose served in the Thirty-eighth session of the Legislature but declined re-election, though it was offered him spontaneously. In the Assembly he was conspicuous in the Japanese fight and was floor leader for Speaker Stanton when he put down the jingo revolt. He was a leader in the fight for the anti-race-track law of that session and was right on all the moral issues. Melrose is at present president of the Los Angeles Normal School Board."

Drs. Rossiter & Paul, Dentists, corner Fourth and Main Sts.

Gentlemen's Agreement More Effective Than Federal Law

(From the San Francisco Bulletin)

Our schools teach that our Federal Government is all powerful within the great republic known as the United States. The trial of the barons of the beef trust, however, has not yet produced any evidence in support of the theory of the pedagogues. According to undisputed evidence, adduced, elicited and dragged out, the beef trust made its own law and knew no other law, either local, state or federal. A law of congress forbade combinations in restraint of trade. The beef trust ignored this law. It not only formed combinations to control all branches of the trade in which it was engaged, but it imposed fines on all members of its combination who failed to live up to their trade-restraining agreement. In short, the beef trust was a law unto itself.

Evidence introduced at the trial of the indicted packers shows that the federal government has not yet succeeded

in impressing its supremacy on the beef trust. Among the exhibits of the prosecution is a copy of a resolution adopted in May, 1900, by the packers' pool. This resolution fixed a penalty of 1½ cents a pound on all over shipments to competitive points in excess of 19,000 pounds a week above the maximum allowed by the packers' agreement. Such was the law of the packers. It did not have an army or a navy or a string of courts behind it, but nevertheless it was enforced, which is more than can be said of the law of the land, with all its backing of army and navy and courts. Possibly, despite our early teachings, the courts do not back up the laws of the land. If so, that explains why the beef trust organized and enforced its own penalties for failure to carry out to the letter its plan of annulling a federal statute that interfered with its business arrangements.

WHY THE FARMER WAS INCLUDED

FOURTH ARTICLE

Contributed by the Industrial Accident Board

In former articles in this series we have shown that Agriculture is a hazardous occupation; that there is no good reason why a man who loses his hand in a threshing or feed cutter is not as well entitled to compensation as one who loses a hand in a planing mill; that the burden of industrial accident has all along been thrown upon the poor and poverty to bear as best they may, and that the burdens of compensation thrown upon employers is not heavy but light indeed, when compared with the share of the burden that falls to the injured person and those dependent upon him. Now we shall undertake to show the farmer how he may carry this burden, a burden that of right belongs to his industry to carry, without crippling him or causing his serious financial hardship.

It must be done through insurance. There is no other way. If he is a thrifty man the farmer carries insurance upon his house, his barn, his growing crop of grain if he has one, his own life, often on his livestock, why not upon the hazards of accident? Many farmers do carry accident policies upon themselves, why not upon those upon the results of whose labors he expects to grow a crop and make a living? The business that will not stand an all-around insurance will not pay to follow, for, sooner or later, misfortune will overtake and destroy it.

The philosophy of insurance is that all pay into a common fund out of which only those draw who lose. It is a carrying of one another's burdens and is founded in the spirit of brotherhood. It is righteous altogether, provided that the fund be righteously handled. Sometimes it costs so much to get the various contributions paid into this common fund, and paid out again, that not more than half as much can be paid out as was paid in. That is the rub with the present industrial accident insurance situation. The condition is intolerable and must be remedied, and the Industrial Accident Board wants the help of the farmers of California in remedying that wholly unsatisfactory situation.

This may be done in one, or all, of several ways: By authorizing the formation of mutual accident associations. The Bee is advised by a telegram from the Chicago Tribune that it is advocating the placing of Roosevelt's name upon the ballot in states that have presidential primaries, in order that it may be learned whether Republican sentiment favors him as a party candidate for the White House. The Bee regards it as a good idea, without reference at this time to the question of Roosevelt's fitness, or of the wisdom or policy of nominating him.

The very purpose of the Presidential primary is to ascertain the wishes of the majority of each party, and those Republicans who may want Roosevelt nominated should have opportunity to show their preference for him and make it felt.

Another reason for this move is that it would be a good way to "smoke out" the Colonel. Under the new California law the name of any person may be got upon the ballot at the Presidential primary election to be held next May, through filing a petition signed by 1 per cent of the voters of any party in each Congressional District. But it is provided that any

person whereby those in each industry can organize for carrying out another's accident risks; by such a state control of private insurance companies as will compel them to fix reasonable rates, maintain their solvency and perform a public service for what it is worth to perform it; by state insurance. Some countries have one of these methods, some have another, some have them all in operation at once. It will be up to California, a year hence, to make choice and the farmer should be a party to that choice when it is made.

A trouble is that, outside liability insurance offices, information does not exist upon which to base an intelligent insurance platform of principles and, even inside such companies, the information is partial and inadequate. It was to supply this need for accurate information that the Industrial Accident Board appealed to the legislature for power to gather statistics relating to accidents during the year 1912. That will not be as serviceable or as safe as though such statistics were obtained for ten years, but very much better than for no years at all. At least it will give a "line" on the subject that does not now exist and will help to an intelligent state policy regarding insurance.

"What will it cost?" No authoritative answer can now be given, but this much we can say: It is the consensus of opinion of economists that take all the industries except the most hazardous, such as railroad, blasting, steel construction, mining, etc., a tax of \$1 upon each \$100 of payroll during the year, if economically collected and economically distributed, will bear all the costs of compensation for industrial injuries requisite for keeping the injured and those dependent upon them above the poverty line until they can develop self-sustaining powers either through attaining a working age or developing an earning capacity in some other line. And that is what compensation is for.

Is there any question that the farmers of California will willingly "vote" their part of this load when a good way has been found for them to do it at no greater cost than that? That is the task we, The People, are up against and we shall achieve it.

Getting Roosevelt's Name On the Primary Ballot

FROM THE SACRAMENTO BEE

The Bee is advised by a telegram from the Chicago Tribune that it is advocating the placing of Roosevelt's name upon the ballot in states that have presidential primaries, in order that it may be learned whether Republican sentiment favors him as a party candidate for the White House. The Bee regards it as a good idea, without reference at this time to the question of Roosevelt's fitness, or of the wisdom or policy of nominating him.

The very purpose of the Presidential primary is to ascertain the wishes of the majority of each party, and those Republicans who may want Roosevelt nominated should have opportunity to show their preference for him and make it felt.

Another reason for this move is that it would be a good way to "smoke out" the Colonel. Under the new California law the name of any person may be got upon the ballot at the Presidential primary election to be held next May, through filing a petition signed by 1 per cent of the voters of any party in each Congressional District. But it is provided that any

MUNICIPAL AFFAIRS

For and Against Commission Plan: The following cities have recently voted to adopt the Commission plan: Lowell and Lawrence, Massachusetts; Fremont, Michigan; Manhattan, Kansas; Lexington, Kentucky adopts it to go into effect two years hence. Sacramento adopted it by a very close vote, and a legal contest may result on the question of the right of recently annexed portions of the city to vote. Against the Commission form three are recorded: Pittsfield and Cambridge, Massachusetts, and Council Bluffs, Iowa. The last two defeats are notable, for the general electorate of Cambridge is unusually intelligent, and Council Bluffs is near neighbor to a number of towns where the system apparently has achieved marked triumphs.

The Street and the Curb: The Supreme court of Wisconsin has rendered a decision on what constitutes the street line that will prove annoying to city engineers in that and possibly in other states. It holds that the street line is the outside edge of the curb nearest the sidewalk—not the face of the curb nearest the street. There was a law that frontage could not be assessed for cost of paving in excess of \$2 per square yard of street surface, and the court holds that street surface must include curb. It is, however, the almost universal practice of engineers to figure the street line along the face of the curb by the gutter.

New York City Water System: Mayor Gaynor asked the Water Commission to figure out whether this present system was paying expenses or not. The figures show a profit of the present system of \$4,782,000 per annum, allowing for interest on bonds but not for sinking fund. Bonds in a total of \$53,000,000 have been issued for the new Catskill system, and additional bonds of \$120,000,000 will be required to complete the enterprise. The present income will lack some \$2,000,000 of carrying the interest on the total future indebtedness.

Cleaning Up The Old Missouri: The State Health Board of Missouri has begun a campaign in which it asks the aid of the Federal government and of all the states along the Missouri river, to put an end to the pollution of that famous old stream by sewage. Cities that adjoin the river will be compelled to treat their sewage so that it will be inoffensive and harmless if the plans of the State Board are carried out. It is believed this will reduce the death rate all along the course of the river.

School Bath Tubs: Putting bath tubs into the schools has resulted in an increased sale of tubs in the regions where the schools are located. Cleanliness is an acquired taste, and when the children get it, it spreads to the entire family. Instead of a few very high priced, trust-made porcelain tubs, this country should have great numbers of galvanized iron tubs such as any plumber can install and any boy can paint white.

Abandons Commission Form: The city of Chelsea, Massachusetts, which was nearly wiped out by fire about three years ago, recently voted to abandon the Commission form of government, under which it has been running for two years, and return to its old system of Mayor and Aldermen. This is the first commission city to change back to the old form.

The South is Awake: According to a circular issued by the Agricultural Department the sum of \$44,000,000 has been spent during the past year in the Southern states for improvement of roads. Texas leads with \$9,600,000, then North Carolina \$4,500,000 and Virginia and Tennessee \$4,000,000.

Cost of Paving in Detroit: An exhaustive report on the subject of paving cost and wearing qualities in Detroit prepared by the Board of Commerce, shows the following comparative cost per square yard: Brick, \$2.74; asphalt, \$2.754; creosote block, \$3.41; granite block, \$3.88.

Buy Direct from Farmers: In many American cities a movement is on foot to reduce the cost of living by purchasing food supplies direct from the farmers. The best method of carrying out this object is to induce Congress to pass the parcels post.

—The E-M-F "30" has set the pace in design and car worth for four years—ever since it came upon the market. Wm. F. Lutz Co. would be pleased to have you see their exhibit this week. Open evenings.

Hold your order for the New Reo the Fifth, the only car, with a self starter and right hand center control, selling for less than \$3000.00.

A. B. HENRICKSON, New Location, 304 North Main Street.

RESULTS OF THE SPECIAL SESSION

(Franklin Hichborn in The Sacramento Bee)

The passage of the legislative reapportionment bill rounded out the work of the special session of the 1911 legislature.

The measure is a compromise, giving the cities of Los Angeles and San Francisco more senators and more assemblymen than the organized country members of the lower house held to be their due; but falling short of the number which the large cities insisted was their constitutional right. As a matter of fact, either side could convince, provided the arguments of the other side were not listened to. As neither side would listen to the other's arguments, practically all the members have gone to their homes dissatisfied with the reapportionment; the country members, because the cities got too much; the city members, because the cities got too little. Under the circumstances, the state is to be congratulated that any reapportionment bill was passed at all.

The Big Issue
The one big work of the session was the passage of the railroad regulation measure.

For such legislation men of the type of Cannelotti have been fighting for a quarter of a century. They have been misrepresented, sneered at, lied about. Their efforts have met repeated failure.

But at the 1909 session an effective regulation measure came within three votes of passage in the Senate. At the 1911 session, as effective a measure as could be enacted under the terms of the state constitution was passed. To permit the passage of a more effective bill, the state constitution was amended last October. The railroad regulation measure passed at the 1911 session, was enacted in conformance with these changes in the constitution.

The new law makes the State Board of Railroad Commissioners an effective body. It gives them powers which if exercised, those who know railroad conditions insist, will end railroad extortion on traffic between inter-state points.

Presidential Primary
The presidential preference primary law is of particular interest, for the reason that it was enacted in the face of opposition from the national Republican committee.

The law provides for the election of delegates to the national conventions by popular, state-wide vote. It further provides the machinery by which the electors of each party express their choice for the presidency, and for binding the delegates to abide by such choice.

School Book Amendment
A constitutional amendment was submitted to the electors, by the terms of which, if it be ratified, school books will be furnished public school children free of charge. The amendment further provides for the reorganization of the State Board of Education by bringing it under the jurisdiction of the state legislature.

Conservation
Several conservation measures were considered and rejected one after the other. This was due principally to their ill-considered preparation, and the ability of the lobby that flattered Sacramento to prevent their passage. The conservationists were not agreed as to what they wanted; the lobbyists were a unit on what they didn't want.

Out of the confusion, a bill was passed, which is claimed to have good features, but which is by no means so drastic as the original measures. It is understood that the conservationists will renew the fight at the next session.

Equal Suffrage
The adoption of the equal suffrage amendment made necessary many changes in the codes dealing with elections. Many of these were trivial, requiring the striking out of the word "male" where it qualified the word "voter." More important were the changes in the laws regarding registration.

It became evident that a clique in both houses proposed to make it as difficult for women to register as possible. Gradually, however, this indirect opposition was broken down. While the provisions regarding registration of women were not made so simple as could be wished, nevertheless many of the drastic requirements urged were denied, and the registration of the new voters made comparatively easy.

Other amendments of the election laws provide for the elimination of graft from elections by reducing the number of clerks, judges, etc., employed in the election booths.

Industrial Accidents
Two measures were passed to bring into operation the new provision of the constitution for dealing with industrial accidents. Both bills

president by direct, popular nationwide vote.

S. J. R. No. 9—Endorsing plans for a line of government-owned steamships from New York to San Francisco.

S. J. R. No. 13—Memorializing congress in favorable consideration of the project contained in the report of the California Debris Commission relating to control of floods in the river system of the Sacramento valley and the San Joaquin valley.

A. J. R. No. 1—Petitioning congress to appropriate \$1,000,000 for the improvement of Yosemite Park.

Important Bill Defeated
The most important measure which failed of passage was the Welch bill, to establish a standard of weights and measures, and providing the machinery for its operation.

This bill passed the Senate, but in the Assembly amendments were added which the Senate refused to accept. Conference committees failed to relieve the situation, and the bill died.

Senator Welch states that the measure will immediately be placed before the people by initiative petition.

PRESS COMMENT

Startling revelations are promised when the congressional committees resume their investigations of the trusts. It is evidently the trusts that are to be started. No revelations could surprise the public.—Philadelphia North American.

City editors in California are now face to face with the problem of whether to send the political reporter or the society one to the campaign rallies.—Ohio State Journal.

One trouble with all the plans for banking reform is that they retain that annoying requirement of collateral as a condition precedent to a loan.—Sioux City (Iowa) Tribune.

The Massachusetts women who boast that they deflected some recent candidates because they were bachelors hint of another tragic angle to this suffragette business.—Washington Post.

About to frame a constitution, the Chinese should take warning by the experience of the people of the United States and make sure they understand what its provisions mean before launching it.—Providence Journal.

Judge Gary and Mr. Perkins want monopoly regulated with particular care that it does not hurt any one, the monopolists especially.—Chicago Tribune.

The Chinese recent has been invited to commit suicide. It would have been much more diplomatic to have graduated him in an aviation school.—Dayton Journal.

FIRST OF THE YEAR

Orange County Conservatory Gives Musicales—Program By Miss Page's Pupils

The first musicale of the new year to be given by the Orange County Conservatory of Music was held on Saturday afternoon at the Conservatory, the participants being a few of Miss Page's pupils. Quite a number of parents and friends attended and enjoyed a varied program of solos and duets.

After the program was finished Mr. Gustlin gave an interesting talk to the pupils upon certain features of artistic piano playing, laying special emphasis upon the legato touch, the singing tone, distinctness of enunciation in tone work and many other important points.

He also spoke of a number of the Italian musical terms and told of their use and meaning in the everyday language of the people as he observed it during his residence in Florence, Italy.

He closed his talk with a plea to the parents urging the importance of regular, uninterrupted study for the pupil, calling to mind that one would not expect progress in school work if such interruptions were allowed.

Mr. Gustlin then closed the enjoyable afternoon with a brilliant rendition of one of Chopin's waltzes.

Fast Matrons to Meet

The Fast Matrons' Association meets with Mrs. Clayton, 531, East First street tomorrow afternoon.

Woman's Club

The Woman's Club will meet at the home of Mrs. L. C. Mansur on North Main street tomorrow afternoon. All members are requested to be present. Roll call, Rhymes from Eugene Fields.

Euterpeans to Meet

The Euterpean Society will meet tomorrow night at the First Congregational church, an interesting program having been prepared. The leaders and topics are as follows:

C. A. Gustlin, Chopin; Lou P. Hickox, Rembrandt; Rev. H. E. Murkett, Poe.

To Attend Convention

Rev. and Mrs. O. S. Russell, Mr. and Mrs. G. P. Hill, H. E. Smith, Mrs. F. A. Holbrook, Mrs. W. G. Gould, Mrs. E. J. Foster, Rev. De Wolfe, Rev. and Mrs. Powell and Miss Phosston are delegates.

When you are writing or telling your Eastern friends about Santa Ana's rare natural and educational advantages just remember to tell them that we now have a modern and fully equipped Conservatory of Music where the very best advantage for a rounded musical training are to be had.

If you are a real estate agent you should not fail to impress your clients with this fact. More and more are people coming to regard a musical education as being as essential as regular school training.

The Other Side of the Tailoring Controversy

Santa Ana, Cal., Jan. 15, 1912.

Editor of the Register:

Dear Sir:—Under date of Jan. 11, there appeared an article in your paper headed, "Sends a Warning About a Tailoring Concern," which I take exceptions to. Inasmuch as the Continental Supply Co. is mentioned as being the concern, I, being state manager for said company, wish to say in answer to the letter herein mentioned that the grievances between the said H. E. Wagner and our company were strictly a personal difference between him and our cutter (whom we have since released from our employ) and not by any refusal of the company to fulfill its contract, as it is our policy to fulfill every contract. To prove this, I

will deposit \$50.00 in gold with the Register, or any trustee it may name, to be given to charity, for proof by any purchaser that we refuse to fulfill any part of any contract signed by our company and given to any purchaser of goods from us.

In regard to J. T. Bush, who also signed the letter printed, all I have to say is that I will swear to an affidavit that he has never bought a dollar's worth of anything from our company. You can judge the truth of such a statement, as you are better acquainted with him than we are.

CONTINENTAL SUPPLY CO.

(Not Inc.)

(Signed) J. P. ANGLE, State Manager.

Personals

SEARCH BRINGS OFFICERS NO CLEW (Continued from page one)

him them. The insurance men took away \$125 in paper money that had been torn by the explosion. This will be redeemed.

Were Not Experts

It seems to be concluded that the men were not expert cracksmen. They used far more nitro-glycerine than was needed to do the work. They left a pop-bottle full of the stuff on a table, enough to blow up the courthouse.

Extent of Wound?

Just how and how badly wounded is the robber who left a blood trail? The question is of considerable importance to those who are hunting for the bandits. At first it was thought that the charge had hit the man in the back and legs. Later developments lead the officers to think that the man was shot in one arm and hand.

As the man turned from the sidewalk to run back of the bath-house he tripped on a telephone guy-wire. Where he picked himself up on the right side of him was a sprinkle of blood as though he had shaken his hand. First thought might indicate that the right arm was hit. The Burns detective, however, points out that it could be either arm, for the man naturally would turn there and back away while looking for his assailant.

At the point where the buggy stood there was considerable blood. It is thought the man bandaged his arm there, for there is no indication of blood in the buggy. That there was nothing in the report that a robber was seen polling across the bay Saturday morning was proven. The three robbers escaped together in the rig.

The three men were seen at Olive about daylight by Mrs. McCoy. She saw them drive up. One man got out and went up the road, and the other out across to still another road. The supposition is that they were seeking to see if anyone was coming. The third man drove the buggy up a curving road and there abandoned the rig. The three men probably got together later.

Whether they got to the railroad and rode brake-beams out is not known. If so they may have gotten away before the discovery of the horse was reported to Jailor Jernigan at 1 o'clock Saturday afternoon.

A man with his left hand and forearm freshly bandaged appeared at the Ritchfield store Saturday and bought some deviled ham. He gave a smooth ten-cent piece, saying it was all he had. The woman who sold the meat to him could give no accurate description.

Getting Evidence Saturday afternoon District Attorney L. A. West and Deputy District Attorney A. E. Koepsel journeyed to Newport Beach and viewed the shattered vault and safe, and looked over the ground of the battle between the robbers and Hall and Grau. Several photographs were taken to be used as exhibits in case the bandits are captured.

"If the men are caught, I am satisfied that we can convict them," said the district attorney.

CAMPAIGNER WILL SPEAK THURSDAY

Union Meeting at Presbyterian Church to Be Addressed to Lose a Leg

On Wednesday evening, Jan. 17th, at 7:30 there will be a union meeting in the First Presbyterian church in the interest of Sabbath observance. The address of the evening will be delivered by Rev. G. W. Grannis, of New York, General Secretary of the Lord's Day Alliance. Dr. Grannis has made a nation-wide campaign for the observance of the Sabbath, and for the bettering of conditions of those whose calling compels them to perform Sunday labor. His efforts have been successful, many of the largest industrial establishments in the United States having reduced their Sunday work to a minimum.

It was largely through the efforts of Dr. Grannis that the order from the Postmaster General was secured which made the Sunday closing of postoffices possible, thereby relieving thousands of government employees from Sunday labor. Dr. Grannis has lectured extensively on this subject, is full of enthusiasm, and deserves to be encouraged in the good work he is carrying on.

MANY CHANGES IN THE OPERA HOUSE

Manager Ulm Makes Over Dressing-Rooms—Comfort For the Stage People

The interior of the Grand Opera House is taking on a new appearance, a brushup and polished appearance. Already the brushes of the painters and the gliders have done much, and the end is not yet. The trimmings of the boxes and the stage front and balcony have all been gilded. New electric light fixtures have been installed. These are but a few of the things that Manager Ulm has had underway for the betterment of the theater.

For the benefit of the ladies who patronize the theater, a dressing-room has been fitted up. It is located part way up the east stairway to the balcony, and is as cozy and neatly fitted up as one could wish. Placards have been placed pointing the way.

White uniforms for the ushers have arrived, and will be worn at the next performance at the show-house. The manager has also secured water-trays, six of them with eighteen glasses to each tray, which came at no small expense.

Best on the Road

Manager Ulm has accomplished wonders in the rearrangement and building over of dressing-rooms. Every room is made as neat as a pin with plenty of mirrors, tables, hooks and chairs.

Zoe Barnett and the actresses who were with her and the actresses who were here Saturday night declared enthusiastically that the accommodations on the stage are the finest on the road.

And after one has gone through the rooms, one may well judge that the statements are exactly true. Troupes expect cobwebs and rough scantlings and broken plaster, but they don't like them, and at the Grand Opera House they don't find them.

A new floor has been laid on the stage and a new property room and a new orchestra wardrobe room have been built.

Manager Ulm is going at the improvements in the right spirit. What ever needs to be done to improve the house is being done or will be done just as quickly as the workmen can reach it.

The Great American Play, "Paid in Full"

"Paid in Full," Eugene Walter's play of modern life, is acknowledged the greatest drama of recent times. Its human interest quality is uncommonly strong, and the author has displayed keen knowledge of mankind in drawing his characters. He has crowded his play with those things that are most entertaining on the stage. He has combined power and depth and humor. Grave situations are skillfully alternated with droll comedy. Nobody can fail to be impressed by "Paid in Full." Everybody finds it entertaining. There has never been a play which appeals so generally as this one, and for that very reason it is the most popular of any recent success. "Paid in Full" will be presented at the Grand Opera House Tuesday, Jan. 16.

CHINESE IN FRISCO JOY OVER CHANGE IN NEW YEAR'S DATE

SAN FRANCISCO, Jan. 15.—China-town is celebrating the adoption of the Julian calendar. The announcement of the change arrived here too late to permit the celebration of January 1, which will hereafter be observed.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed, it cannot perform its function properly, and hearing is lost. If the inflammation can be taken out and this tube restored to its normal condition, hearing will be restored, and the deafness cured. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. E. J. CHENEY & CO., Toledo, O. SHOW AND HOUSE AS FINE AS SILK

Accommodations For Show People Declared to Be the Best on the Road

One of Biggest Audiences on Record Attend "The Three Twins"

When nearly every seat in the house is taken, when thereby the people of the stage are keyed up to do their best entertaining, when the show is "The Three Twins" and the caste and chorus are what they ought to be, when people are out to laugh and find plenty to laugh at, then the show is a good show and everybody, including the manager, is pleased.

It was just such a performance that was on hand at the Grand Opera House Saturday night.

The gallery was packed. The lower floor was filled with the exception of a dozen or two seats on the sides. Santa Ana must have considered it well to have company manners—that is, do as some would do at dinner, leave a little on the plate for politeness' sake. Whatever the reason, there were only a few empty seats. It was the biggest house the Grand Opera House has had in many a day, and only exceeded the last three performances at that show-place. The public seems to fully appreciate Manager Ulm's efforts to get first-class productions and to keep his theater in first-class shape.

The occasion was the presentation of that well known musical comedy, "The Three Twins," with all of its uproarious mix-ups as the result of confining three men, who look alike, in a sanatorium for the mentally unbalanced. Each of the "twins" has a wife or sweetheart or sweetheart's seeking him. Each twin is caught by a woman who mistakes him for her husband, and quite often the twin doing the kissing is caught by the woman who loves him, and he pretends he is the other twin.

With excellent comedians and a good chorus, the show was a good one, as "The Three Twins" never fails to be when the caste is right.

We have just put into operation an expensive new machine for doing up collars that does excellent work. The Peoples New Laundry, 901 East Fifth street.

NEW YORK CITY NEEDS WOMEN POLICE, SAYS CITY'S SHERIFF

Named Prominent Women As Aids, Only to Find Law Forbade Swearing In of Women As Deputy Sheriffs.

NEW YORK, Jan. 13.—New York may yet have women deputies, such as Sheriff Julius Harburger wants. The Tammany Sheriff named a number of them—and then found that it was illegal for a woman to be sworn in as a deputy sheriff.

But a woman lawyer—Mrs. J. S. Valentine—came to his aid and prepared a bill which "Big Tim" Sullivan will try to push through the New York legislature, providing for the appointment of women deputies. Sheriff Julius Harburger expected great things from his "female squad." Among the women whom he named are Mrs. John Crosby, president of the New York Women's Democratic Club, and Miss Cornelia Swinnerton, a leader of the Suffragists.

Mrs. Caroline Truax, widow of the late Justice Truax, is among others who were to be named, while a list of names had been submitted by Mrs. Crosby.

Sheriff Harburger said today he had intended to appoint just as many women deputies as there were applicants who were mentally and physically fit to serve, and who could furnish the \$10,000 bond necessary. "The women were to receive no compensation," he said.

"I believe the morality of New York would be greatly heightened by the appointment of my women deputies," said the sheriff. "The women would have full power to make arrests the same as the men. They would be especially valuable in going through factories, in protecting young girls at the public dance halls on the subways and in all public places."

"This is a phase of an officer's work which obviously can be better done by women than by men."

"Not only that," continued the sheriff, "but the women deputies would be able to get evidence from others of the sex that a man would be unable to secure."

"There would have been some swains hereabouts somewhat surprised when, dancing with a winsome girl, they dropped into the 'Grizzly Bear,' the 'Turkey Trot,' or some other indecent and offensive dance, only to have a badge flashed on them by their partner and be taken to the station house," and the sheriff chuckled at the thought.

"Broadway and the hotels, especially the latter, are infested by mashers of the boldest sort and it seems the police cannot or do not clean them out."

"Then, too, there are women who make themselves obnoxious to decent people by their actions on trains, in restaurants and other places. The women deputies will act with greater celerity than men in such cases."

"Do you think the women will have any trouble getting their prisoners to go to the station house?" was asked.

"I do not think so. If you were arrested by a pretty woman, would you feel like resisting," the sheriff replied.

"It is the badge that does the work. When I was a coroner, I used to go into the worst dives in the city. Always, when I displayed my badge the toughest would make way for me," the sheriff is barely five feet two.

"How would you prevent your deputies from using their badge to make other women stand back at bargain sales?" was asked.

"That would be funny, wouldn't it?" Sheriff Harburger pondered a moment. "I hardly think any of my appointees would take this advantage," he said, finally.

"The women would take greater interest in the suppression of the sale of liquor to children than the men do. I would expect to get the best work along this line by the women."

"I am surprised at the number of applications I received, and the standing of the women making them. In that pile of letters, indicating a lot of 200 to 250 applications—there are requests from some of the best known women in New York for a badge and authority to help put a stop to mashing and offensive dances."

"Will the activities of your deputies be confined to the public dance halls?" was asked.

"No, sir," replied the sheriff emphatically. "Before many months you would probably have been reading in the papers that some woman in an evening gown has stepped out on the floor at some fashionable ball and taken into custody some couple representing the wealth and aristocracy of Gotham. Would have been a sensation, wouldn't it?" he added.

It is probable that Sheriff Harburger would have appointed as many as 600 to 700 women as deputies before he considers the list complete.

In order to bring before the public some of the plans which the recently organized Young Men's Christian Association of Santa Ana expects to carry on and at the same time make some additions to the talk I gave before the Parent-Teachers' Association of the high school, I am sending this article.

The Triangle League of Orange County is an organization of the pupils of the schools which has been adopted by the teachers of the county and will enroll pupils of the schools who will agree not to use tobacco, alcoholic liquors or profanity. The county secretary of the Y. M. C. A. will co-operate with the schools in promoting this work and will act as secretary-treasurer of this league. The county superintendent of schools is chairman of the executive committee which has direct charge of the work. The ideas and principles of the league are to be presented in the schools of the county on Friday afternoon, January 26th, and pupils given an opportunity at that time to enroll as members. Each member will be given a badge as a certificate of membership and during the year various events will be conducted for members, those which are at present being planned being an athletic contest in May and a spelling contest.

The Bible class referred to in my recent talk is only a local arrangement of the Y. M. C. A. of Santa Ana, and will soon be started. It plans to give Sunday school teachers of boys training for their work, as well as train young men for this work. There will also be popular features in Bible study, and arrangements will be made so that a young man can drop in for an evening though he may not be a regular attendant.

In regard to a building, it is not our expectation as reported that any one man will erect a building for the use of the association. It is hoped that one man or a small group of men will make the first big gifts to start the fund for a building suitable for the needs of the men and boys of this rapidly growing city and county. The largest proportion of the money needed for such a building will be subscribed by the people of the community as soon as the right start can be given. The best thing about such a method of raising money is the large number of people who are blessed in their own lives by giving for the good of others. It is not the province of the recently organized association here to look after this proposition. There are other agencies for such work. The desire of those organizing this work is to benefit the young men and boys of the community as much as possible even though handicapped by the lack of a building.

In addition to carrying on this union Bible class, the association is to make a systematic effort to get more young men related to the present classes in the Sunday schools. Later it is hoped to organize a boys' club in connection with this work and promote athletic, social and religious activities for them. If sufficient competent leaders can be secured and trained for the work, groups of Boy

Scouts will be organized. An employment committee will endeavor to assist worthy young men to secure positions, a work very much needed in this community. Also it is hoped to secure a list of satisfactory rooms and boarding places. The athletic committee will carry on various phases of outdoor athletic work. Some very enterprising and capable young men have already accepted positions as chairmen of committees and this list will soon be announced.

In the meantime every man in the community desirous of seeing this work succeed should fill out a membership blank and hand it, together with his dollar for a year's dues, to some member of the cabinet or committee.

The officers of the association are: Charles Robinson, president; Samuel Vogt, vice-president; Leslie Pierson, recording secretary; J. G. Morrow, financial secretary; and Harry L. Hansen, treasurer. Lauren Meade has accepted the chairmanship of the membership committee, R. R. Smith of the employment committee, and Martin Warren of the athletic committee. The others will be announced soon.

Feeling sure that the people of Santa Ana will give these new officers and committeemen all the encouragement and help possible, I remain,

ROBERT J. HAMILTON,
County Y. M. C. A. Secretary.

DIRE DISTRESS

It Is Near at Hand to Hundreds of Santa Ana Readers

Don't neglect an aching back. Backache is the kidneys' cry for help.

Neglect hurrying to their aid. Means that urinary troubles follow quickly.

Dire distress, Bright's disease. W. N. Nelson, 902 E. Fifth street, Santa Ana, Calif., says: "Six or seven years ago, while living in Pennsylvania, I used Doan's Kidney Pills and was relieved of pains in my back from which I suffered. Occasionally my back was so painful that I could scarcely turn over in bed. In addition to this, I also had rheumatic pains. The contents of a few boxes of Doan's Kidney Pills, procured at Dean's Drug Store, removed my aches and pains and I have had no cause for complaint since."

For sale by all dealers. Price 50 cents. Foster-McBarn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

SANTA MONICA ACREAGE SOLD AT RECORD PRICE

SANTA MONICA, Jan. 15.—One of the largest real estate deals ever transacted at this beach was consummated yesterday when J. J. Davis of Santa Monica purchased from the Santa Monica Land Company 180 acres lying between San Vicente boulevard and Montana avenue and extending from Seventh to Fourteenth street.

The price paid was \$450,000 or at the rate of \$2,500 per acre, which is the largest price ever paid for acreage in this vicinity.

See the new Racycles at Coleman & Hossie's, 217 West Fourth St. Both \$40.00 and \$50.00 models.

MAY GIVE AID TO SELECTIONS

Funds Reported to Be Raised in Favor of the Four Sites Considered
Reid Tells Anderson Most of Stafford Tract Cannot Be Sewered

It is reported that subscriptions are being taken for funds as a part of the negotiations for the settlement of the location of the new polytechnic high school. Those who favor the Stafford tract on East Chestnut are said to have a sum subscribed, and those who favor the Gist offer, which lies a block south of First street, are expecting to make a substantial cash showing. Those favoring the Townsend tract on Hickey street may raise some money to reduce the amount the school board would have to pay for the seventeen acres.

A good deal of interest is being taken in the North Main street proposition, the location of the polytechnic between Main and Broadway north of Buffalo. Robert Paine and W. L. Grubb, who were among those who first took the matter up, received a great deal of encouragement. The site of ten acres would cost probably \$45,000.

Today J. N. Anderson, one of the advisory committee, went to the city hall to see Ransom Reid, superintendent of sewers, to see if it were a fact that the Stafford tract lies south of the territory that can be sewered by the present system.

The Stafford tract lies south of Chestnut. Reid explained that a large share of the tract could not be put under the present sewer, that the main lines along Chestnut, and that any connection to the south would have to be relatively quite near the street. Sewer facilities could be secured still further back by laying the pipe practically on top of the ground, but the basement could not be sewered.

All three of the sites proposed for the new grammar school lie south of the sewered territory.

FOUND GUILTY AND GIVEN FOURTEEN YEAR SENTENCE

Clyde H. Taylor was today found guilty by a jury of passing a fictitious check. He asked for immediate sentence, and was given fourteen years in prison. He was given his choice of prisons, San Quentin or Folsom, and Taylor said Folsom. As Deputy Sheriff Squires was taking Taylor back to prison Squires asked him why he took Folsom. Taylor declared he had said San Quentin. The prisoner was taken back to court, where the slip was explained to Judge West, who changed the order to San Quentin.

Taylor got the lightest sentence possible under the law, there being a prior conviction of grand larceny against him. He served a term at San Quentin for stealing Judge Towner's automobile.

Today he was tried for passing a worthless \$25 check. It was accepted by H. H. Kelley of the Cadillac Garage, J. Howard Turner and H. T. Rutherford, assistant cashiers of the Farmers & Merchants' National Bank, testified that Taylor had no account there. Taylor signed his own name to the check.

The county clerk today entered dismissals in two suits. One was that of the Celery Growers' Association against R. R. and W. E. Gerhart and the other that of Jos. Backs against A. L. Lewis, F. O. and Lee A. Daniel are attorneys for the plaintiff in the first case and F. C. Spencer for the plaintiff in the second case.

SUPREME COURT HOLDS LAW VALID

Declares Employers Liability Law to Be Entirely Constitutional

WASHINGTON, Jan. 15.—The Supreme court has declared that the employers' liability of 1908 is constitutional. Justice Vandevanter delivered the opinion. The court held that the act rightfully superseded similar acts in various states. The opinion was delivered in four cases.

Northern Pacific Fireman Babcock was killed in a collision at Young's Point, Montana, in 1908. The wife sought \$800 damages under the 190 employers' liability act, and won the suit. The railroad then contended that the federal law was unconstitutional by reason of the fact that the Montana law on the same subject governed the case.

The Supreme court ruled that such cases may be brought in either a state or federal court having concurrent jurisdiction, where such authority of the state courts is clearly defined.

Justice Vandevanter's opinion said: "It rested with congress to say whether the law operating upon all the states is better than the laws in the several states. It is true that liability is imposed only on interstate carriers, but that does not prove that this is a preference in violation of the fifth amendment."

109 Men Carried to Sea on Breaking Ice Floe

ASTRAKHAN, Russia, Jan. 15.—One hundred and nine men were carried to sea by the breaking of an ice floe, and are believed to have drowned.

For Insurance

Elizabeth Lady has petitioned for letters of administration on the estate of Carl Marion, Inez and Lawrence Hickman, minors, children of Lillian Hickman, who died last week. The estates consist of the interests of the minors in a \$1000 life insurance policy in the Fraternal Brotherhood. W. F. Heathman is attorney for the petitioner.

Asks Guardianship
Harris des Granges has petitioned to be appointed guardian of the estate in this county of Katherine des Granges, who on Oct. 12, 1911, was committed to the insane asylum at Green Bay, Wis. The estate consists of a \$1500 lot at the corner of Lemon and Broadway, Anaheim. C. R. Allen and R. E. Tarver are attorneys for the petitioner.

Marriage Licenses
On Jan. 12—Robert A. Roth, 23, and Amelia Lopez, 20; Joseph E. Switzer, 51, and Mary A. Rowntree, 40; Maurice A. Lovey, 23, and Mabel Corte, 19; all of Los Angeles. On Jan. 13—James D. Waggoner, 53, and Elma Meyer, 30, both of Seattle; Fred McBryde, 27, and Nettie L. Pierpoint, 28, both of Los Angeles; Henry P. Scanlon, 22, of Spadra, and Ula V. Chittwood, 18, of Pomona; Theodore Salverson, 21, and Elizabeth Marire Greene, 19, both of Pallerton; Reinhold Dinkler, 21, of Olive; George A. Mills, 61, and Agnes Barnds, 43, of Fullerton.

C. AND O. EMPLOYEES GET WAGE ADVANCE BY ARBITRATION

WASHINGTON, Jan. 15.—Telegraph operators on the Chesapeake and Ohio Railroad are to receive an increase in wages as a result of the arbitration between the men and the road before Commissioner of Labor Neill and Judge Knapp. The telegraphers asked for a 20 per cent increase in pay but this was not allowed.

The amount of the increase was not made public, but it is believed to be 10 per cent.

ORANGE COUNTY SHOWS INCREASE OF 12.4 PER CENT

SACRAMENTO, Jan. 15.—A big increase is shown in the number of marriages in Los Angeles and Orange counties for 1911 over 1910, according to figures tabulated by George D. Leslie, statistician for the State Board of Health, and given out Saturday. Marriages in Los Angeles county last year numbered 6263, showing an increase of 811, or 14.9 per cent, as against a gain of 594, or 10.2 per cent for 1910. For Orange county, which adjoins Los Angeles county, the increase was 12.4 per cent, against 9.2 per cent for 1910. The total number of marriages in that county for 1911 was 1069.

PENCIL SHARK HAS HEARING

W. W. Poole Says That Anderson Struck at Him With Paint Brush

Dick Sharp, pencil thief, today was held to answer in the superior court on a charge of burglarizing the La Habra schoolhouse. Sharp made no defense, and afterward told Justice Cox that he stole pencils and sold them. When arrested Sharp had hundreds of pencils, probably all stolen from schoolhouses.

Witnesses against Sharp were W. L. York, R. E. Glazier and Deputy Sheriff Squires. York saw the man enter the schoolhouse and Glazier caught him in the schoolhouse.

Look Different
A different view of the W. W. Poole case has been presented. Poole's preliminary examination on charge of assaulting D. Anderson, a fellow-painter, with a knife, is set Jan. 16. Poole declares that Anderson and annoyed him for two or three days, and rushed at him to strike him with a paint brush when Poole drew his knife and threw up his hand to ward off Anderson's blow. Thus Anderson's wrist fell on the knife. The character of the cut bears out Poole's story.

DINAMITING CASE RESUMED TODAY

INDIANAPOLIS, Jan. 15.—With Orle McManigal scheduled to testify today or tomorrow, the federal probe of the alleged national dynamiting conspiracy is nearing termination. Federal Attorney Oscar Lawler returned from Washington today to finish the case.

SENSATIONS LOOKED FOR IN COUNTY GRAND JURY PROBE

LOS ANGELES, Jan. 15.—Sensational developments are expected when the county grand jury resumes the probe of the bribery scandal arising from the McNamara case. It is rumored that Bert H. Franklin, accused of bribery had again been in conference at the district attorney's office and that he might appear as a witness.

Twenty new subpoenas are reported as having been issued, including more gentlemen. Among the witnesses were Fred C. Lehmer, venemman; John J. Hart and Henry Olsen, all of Sierra Madre.

COUNTY GRAND JURY SUBPOENAS FRANKLIN

LOS ANGELES, Jan. 15.—Bert H. Franklin, accused of bribing and attempting to bribe McNamara jurors, has been subpoenaed to appear before the county grand jury according to Le Compte Davis, his attorney. The writ is returnable today.

Deputy Federal District Attorney Ford was closeted with the McNamara venemmen. This is unusual and is regarded as significant. It is reported the jury may demand the books of the McNamara defense fund custodians.

—The 1912 E-M-F "30" sets a standard by which to judge cars costing much more. Do not fail to visit our salesroom this week. Wm. F. Lutz Co.

COMING TO SANTA ANA

ROSSMORE HOTEL

TUESDAY, JAN. 16, FROM 10 A. M. TO 4 P. M. ONE DAY ONLY.
A well-known Specialist of the Therapeutic Institute, 946 South Broadway, Los Angeles, by request of many friends and patients, will visit Santa Ana on the above date. Every afflicted man and woman is invited to call. Consultation, Examination and Advice FREE.

MARVELOUS DISCOVERY THAT CURES QUICKLY WITHOUT DRUGS.

Cancers, Tumors
A SIMPLE, SAFE, RELIABLE METHOD THAT QUICKLY CURES WITHOUT CAUSTICS OR OPERATION—NO KNIFE, NO PAIN

If you have failed to get relief from old-time methods of treatment do not despair—there is still hope and help for you.
We have successfully treated Cancers, Tumors, Goitre, Consumption, Asthma, Catarrh, Deafness, Weak Lungs, Chronic Cough, Rheumatism, Neuritis, Piles, Fistula, all Skin and Blood Diseases, Paralysis, Locomotor Ataxia, Spinal Trouble, all Nervous Diseases, Prostatic Trouble, Diseases of the Kidney, Bladder, Nervous Debility. We give special attention to diseases of women.

Our treatment is applied directly to the affected parts. It is mild, soothing, healing and has immediate effect.

St. Vitus Dance, Stub-born Nervous Diseases

Diseases of the nervous system require the highest degree of medical skill for successful treatment. Epilepsy, Chorea or St. Vitus Dance, Paralysis in its various forms, Hysteria, Spinal Prostration and other derangements or lesions of the nerves, brain or spinal cord are usually very obstinate and often regarded as incurable. The majority of such cases are incurable by the ordinary methods, yet they yield readily by our system of treatment. The first thing in the treatment of these diseases is to locate the cause of the disease which is often obscure. Science enables us to accomplish this.

We extend a cordial invitation to every man and woman to visit our institute and talk with us about their affliction, and to let us demonstrate the means we have employed successfully in hundreds of other cases.

Suffering Women
Among the vast number of our women patients fully three-fourths tell of having previously submitted to some painful and dangerous operation, involving in most instances the sacrifice of some important organ, and that, too, without the slightest relief or benefit, while many find their sufferings to have been aggravated and intensified.

Our treatment saves suffering women from dangerous surgical operations. It has proven efficient, reliable and successful in all manner of diseases of women. It has cured the most severe cases of inflammation and congestion of the womb, inflammation and congestion of the ovaries, ulcerations, fibroid tumors, ovarian tumors, incipient cancers, falling of the womb, irregular, profuse, painful menstruation, etc.

The remarkable success of this modern painless treatment has been attested by scores and hundreds of cured patients, while its value has been attested to and endorsed by some of the most prominent medical writers in the country.

Every woman suffering with any disease, weakness or disability peculiar to her sex, is invited to call or write.

Many Cured Patients

We give below names of a few of our many cured patients:
Mrs. Geo. Bredow, 1239 East Twenty-second street, Los Angeles, says: "Some years ago I had what the doctors called a fibroid tumor. They estimated that it would weigh at least thirty-five pounds. To my knowledge it had been growing for about five years. It caused me a great deal of suffering and anxiety. On September 4, 1902, I called on a physician in charge of the Therapeutic Institute, 946 South Broadway, for consultation and advice. He made a careful and thorough examination of my case and to my surprise, said he could cure me without an operation. I took treatment from him for six months, and in that time I was reduced to my normal size and completely cured. It has been now nearly nine years since I took the treatment, and I have never had any return of the trouble. I consider this wonderful, because the leading physicians and surgeons that examined me before all said the only thing to do would be to go to the hospital for an operation, and it would be doubtful if I would recover from the shock, owing to my weakened condition. I can say to the ladies of Los Angeles and vicinity that I feel that I owe my life to the treatment and can highly recommend it to the afflicted."

Levis Williams, 2632 Losmore street, well known retired business man, cured with two treatments, of cancerous growth on hand.

G. H. Parrier, 1525 East Fifty-first street, was cured in two months of a large cancerous tumor on left breast, from which he had suffered for four years.

Mrs. J. Brown, 219½ North Olive street, cured of piles, after intense suffering for ten years.

"We have on file hundreds of testimonials similar to the above. If you are afflicted and interested, you are invited to call and investigate.

Bladder and Kidney Diseases

W. M. Weaver, assessor of Imperial county, California, says: "For ten years I suffered with prostate and bladder trouble; was obliged to get up from three to ten times every night and at times had smarting, burning pains, weak back, was getting very nervous and losing strength. I became much alarmed about my condition, as all medicine and treatment from doctors seemed to do me no good. I read in the paper of the many cures accomplished by the Therapeutic Institute, 946 South Broadway. I decided to try once more. I came to Los Angeles, called on the physician in charge and commenced treatment. After taking only seventeen days' treatment I can truthfully say that I feel completely cured. Now I go to bed and sleep all night without being disturbed for the first time in ten years, and feel like a new man. I can highly recommend the

Deafness, Catarrh and Head Noises

Our system of treatment for Deafness and the troubles which accompany it is not only effective, but absolutely free from pain. No disagreeable instruments are usually necessary, as the inner tubes, which become blocked up and cause the ringing and buzzing sounds and impair the hearing faculty, open up readily and the bones of the ear are restored to elasticity by our method. The disagreeable noises are then quickly stopped. Those who have been treated unsuccessfully in the past are invited to try our scientific system which will have immediate effect.

Poof breath, spitting slime and mucus, scabs and scales forming in the nose, sneezing, pain in the head, dizziness, impaired smell or taste, dropping in the throat, are easily overcome by our treatment.

Ailments of Men

MARVELOUS DISCOVERY THAT QUICKLY CURES WITHOUT DRUGS

There are thousands of weak, broken down men dragging on from day to day who might be strong and vigorous as ever they were if they would only turn to the right source. Our system of treatment cures without drugs. It gives you back the very element you have lost. It puts new life into the veins and renews the vigor of your youth.

Every person suffering with Rheumatism, Neuralgia, Bladder and Prostate trouble, Burning and Smarting Pains, Irritation, Unnatural Discharges, Stricture, Obstructions, Frequent or Painful Urination, Pain in the Back, Nervous Debility, Loss of Memory, Ambition and Strength, Varicocele, Hydrocele, Piles, Fistula, Sore Throat, Mucous Patches, Pimples, Copper Colored Spots, Sores and Ulcers, Bone Pains, Falling Hair or any diseases, weakness or disability, is invited to visit our office and talk with us about his affliction and let us demonstrate free the means we have employed successfully in hundreds of other cases.

Our treatment is applied directly to the weak and affected parts. It is mild, soothing, healing and has immediate effect. Some cases are cured with one or two treatments—there is no shock, no pain. A cure from this treatment is guaranteed to be permanent.
